

Health and Safety Policy

It is the aim of Nitec UK Limited to perform electroless nickel coating and associated processes within a safe system of work.

The manual is structured to conform to the requirements of the Health and Safety at Work Act 1974 and specifically the Control of Substances Hazardous to Health Regulations which are very relevant to Nitec operations.

The implementation and enforcement of the management system is, through regular auditing and maintenance of records, the responsibility of the Systems Manager.

It is the intention of the company that all processes operated on site are conducted in a safe and proper manner and hazards associated with processes are controlled and , wherever practicable, eliminated.

To this end, the management will, as a result of objective assessment of the risks involved in operating such processes, issue and maintain control measures which shall reduce the assessed risks to an acceptable level within the framework of the regulations and other guidelines imposed by the appropriate authorities and inspectorates.

Signed

D. Brown
